JCC2015's Highlights

Objectives

This is the 1st edition of the Tunisian Chemical Society Conference on Coordination Chemistry which aims at providing a forum for discussions of all aspects of coordination chemistry and to give an overview of the state of the art in this field. Young chemists are particularly encouraged to participate and they will find answers to questions that stimulate their continued research. Five subsections will focus on frontier topics of coordination chemistry, including recent results that would impact our daily life, such as development of new ligands for drug design, catalysts for modern plastics and functional nanomaterials. The meeting will help scientists to identify important applications of coordination compounds. The conference will bring together not only coordination chemists but also scientists with academic (biology, medicine, physics) or industrial background to share scientific knowledge in an interdisciplinary atmosphere and to foster collaboration between these scientists. This will generate significant impact regarding future research in coordination chemistry on an international level.

Topics

- Ligand Design in Organic Synthesis
- Metals in Biology, Medicine and Materials
- Catalysis, Environment
- Metal Complexes: Structure and Reactivity
- Functional Materials, Computations and Theory

Program

The program of **JCC2015** includes:

- plenary lectures (40 minutes)
- invited lectures (30 minutes)
- oral communications (15 minutes) and posters
- an exhibition of scientific equipment

A booklet containing all the conference abstracts and papers will be distributed to participants. Authors are required to provide a summary of an **A5 page** in MS-Word format according to the following instructions:

- superior margin of 2.5 cm, 2,2 cm margins on each side and a bottom margin of 1.5 cm. A template model is available for download in ACC17's website.
- Title in uppercase (centered, Arial 10, bold, spacing 1)
- Authors' names (centered, Arial 9, spacing 1) with presenting author 's name underlined
- Authors' affiliation (centered, Arial 8, italic, spacing 1)
- Text (justified, Arial 9, spacing 1).

Posters Presentation

Posters should be 1.20 m high and 0.90 m wide. Abstracts of posters will be numbered and listed in the final program. Different sessions will be held for poster presentations. Authors are requested to be next to their posters during the official poster sessions.

Participation

To register, please complete the form available on the website of the SCT: www.sctunisie.org

Deadline for registration and abstracts submission

April 10, 2015 (Registration page disabled)
