

CHEMICALS & MATERIALS FOR EMERGING TECHNOLOGIES (CHEMET) E-CONFERENCE

15-17 NOVEMBER 2020

On behalf of **Emergent Materials Journal**
and **Chemistry Africa Journal**,
we would like to invite you to attend
a special E-conference entitled:

Free
registration

Chemicals & Materials for Emerging Technologies

CheMET 2020

15-17 November 2020

Time: 1:00 pm - 5:00 pm (GMT)

A Webinar organized by "Emergent Materials Journal (**EMMA**)" (*Centre for Advanced Materials at the University of Qatar*) and "Chemistry Africa - A Journal of the Tunisian Chemical Society" (**CHAF**), two sister journals published by Springer. This conference aims to bring the academicians, industrialists, researchers, and students into a common platform where they can exchange their ideas and interact with the peers, towards the development of Synthesis techniques of materials and developments of Smart Materials for Emerging Technologies.

There are no registration fees. You can participate with a poster (the number of remaining places is limited, so the work must be original, of quality and very well done). The last date for the Poster submission has been extended to **Wednesday 11 November 2020**. There will be 2 best poster awards. All the posters will be published online with abstracts in the QU Press publisher. After your registration, you will receive an email with the links to the video-conferences.

With warmest regards
CheMET - Organizing committee
